

Striped variation in colors of the falling leaves

2016 Sonja B.

A few months ago I was driving a car with my oldest daughter to a vet with our cat. He was very sick. By the coincidence of all the circumstances, I had to borrow the mother-in-law's car and what did not happen ... We stopped due to convoy of cars in front of us and one lady who was chatting with her dog sitting in a passenger seat crashed to us in a full speed. Our daughter had several months some health complications. For many months, I did not have a thoughts for any hand crafts... nor locker hooking. Later, I fell into the circle of three children, my work, my household and I forgot about making something for myself only.

One day after the work I found out a little kitten weeping outside the door of our company. I was not thinking too long and brought it with me to our home as a friend to our cat. Through the way home I was not hurry. I was looking a nature around, changing colors of leaves... there was a snow in the air. Because I did not have any toy for a kitten at home, I decided to make some. I cut stripes of fabric to make a ball and suddenly... found out that I missed looping :-)) And the colors of the falling leaves inspired me...

Dimension: 34x21 cm

Width of the bottom: 9,5 cm
