

# Blue & White purse with stripes and beads handles

2017 Sonja B.

After changing my full time job to part-time I really enjoy my life and feel that this is how I love to work... I have a time to relaxed by my favorit handcraft also :- ) ...and here is the result. The size is just right (ca 34x24 cm). I choosed colors according to the preferences of the future owner of this purse. Dominant light blue to wering jeans, strips in wine red and black for an universal use... Dark lining with four pockets to be functional. I used more docorative handles this time - with beads - and place them out of the usual to the middle of the purse to let become beads apparent on the light background. I think that the new onwer likes it...
